

STUDENTS LEADING STUDENTS

"Every year we gather as a group of students. SLS members are dedicated to our club and to each other. SLS gives us the opportunity to be the great innovators of society in our local community."

- Julie, SAB
Houghton Lake High School

"We all believe so strongly that we can make a difference. We inspire each other to be great."

- Kayla, SAB
Garber High School

"By having students create and lead the meetings, a mutual understanding is developed among students. This, in turn, creates a willingness and openness from students to learn new concepts. The engaging atmosphere of having youth be the students as well as the teachers is at the core of SLS and drives all the beliefs of SLS, such as the significance of school-based health initiatives. "

-Radha, SLS Alumna
Cousino High School
